

Payment Guideline: COVID Test Payments

Read First**IMPORTANT INFORMATION CONCERNING
WELLFLEET PAYMENT GUIDELINES**

This Payment Guideline serves as notice to health care providers of Wellfleet's payment practices. Health providers are advised to consult their own network provider agreement for determining specific payment policies.

Wellfleet may use reasonable discretion in applying these Payment Guidelines to health care services provided to its enrollees. This Payment Guideline does not address all the issues related to reimbursement for health care services. Other factors impacting reimbursement may supplement, modify or, in some cases, supersede this Payment Guideline. These factors may include, but are not limited to, legislative mandates, the type of provider arrangement and the terms of that agreement, and/or the member's benefit coverage document.

Wellfleet may modify this Payment Guideline at any time to comply with changes in national standards, changes in best practices, or other factors that may impact this payment Guideline. Should this Payment Guideline be revised, Wellfleet shall publish a new version of this Payment Guideline. Wellfleet encourages providers to keep current with any CPT or HCPCS updates as well as industry standards related to the services described in this Payment Guideline.

Providers are responsible for submission of accurate claims. Wellfleet reserves the right to request supporting documentation for claims submitted, including provider records.

 - Excluding policies issued by the following employers: N/A

Purpose To define Wellfleet’s policies for payment for COVID-19 testing

- Scope**
- All COVID-19 testing
 - Guideline may be revised under the following circumstances:
 - COVID vaccine becomes generally accessible
 - Emergency orders/regulations expire
 - COVID penetration/immunity reaches >70% of the population

- Definitions**
- PCR Antigen test (“PCR” test): Gold Standard for detecting active disease; almost 100% accurate, requires several hours processing time in a professional laboratory, may not detect disease acquired ≤ 5 days prior
 - Rapid Antigen test (“Antigen” test): detects active disease but less accurate than the PCR test, both false positives and false negatives possible, results possible ~15 minutes, may not detect disease acquired ≤ 5 days prior
 - Antibody test: detects past disease and possible immunity, may not detect active disease

- Guidelines**
- To detect active COVID-19 disease:
 - **Antigen test** (on-site rapid screening and in-lab test) OR
 - **PCR** (Polymerase Chain Reaction) **test** (in-lab test)Either of the above tests will be covered under the following conditions:
 - An FDA approved test is utilized AND
 - The member meets CDC/state requirements for testing Or

- The testing is for “asymptomatic testing” as an “individualized clinical assessment,” and not part of EITHER:
 - Public Health Surveillance Testing (i.e. prior to or after travel) OR
 - Testing as part of a group of people without symptoms and known exposure (i.e. to return to work or school)
 Or
- State regulations mandate coverage of testing without the above requirements being met.
- To detect late active or past COVID-19 disease:
 - **Antibody (serology) test** (in-lab test)
 The above test will be covered under the following conditions:
 - The test is medically necessary **AND**
 - The member meets CDC/state requirements for testing **AND**
 - An FDA approved test is utilized as ordered by a qualified provider (“Provider”)**OR**
 - State regulations mandate coverage of testing without the above requirements being met.
- For Rapid Antigen testing, Wellfleet will reimburse for the test as a single complete payment
 - Wellfleet will not reimburse for test collection/administration and processing as separate fees for Rapid Antigen tests; billing as such would be considered unbundling
 - Medical records may be required to support medical necessity for reimbursement for outpatient Antibody testing
 - Medical records may be required to support medical necessity for reimbursement for outpatient testing that includes other viral tests bundled as a panel along with COVID-19 testing
